USB webcam Genius Videocam NB license windows10 USB webcams and webcam drivers Download Genius VideoCAM NB Webcam driver for Windows 10. CIF Single Chip Webcam Driver Windows 10 free download - SiS530 Single. This camera is not compatible with Microsoft Windows 7 or Windows 8. The Genius Videocam NB supports USB 2.0 input and output. Download latest drivers for Genius Web Cam on Windows. Web Cam driver Genius videocam nb Driver Genius Web Cam ISlim 330 The Genius Videocam NB is a stereo microphone input only webcam. The Genius video camera is the only one that uses a Sony/Philips chip, while the rest of the videocams have chips made by a company called Conexant. If you have the space and want a high end webcam, this is it. It has an 8 mega pixel resolution with 1280x1024 pixel. With this webcam, you get good quality videos from the webcam, it is easy to use and it is the only one that does not require an IR led. It has an illuminated (with a blue light) marker so that it is easy to identify the position where the camera is in front of the monitor. It uses the USB 2.0 standard. The webcam provides support for motion detection and for a network connection. This webcam is not compatible with Microsoft Windows 7 or Windows 8. The audio quality is very good. The webcam provides balanced audio with no problems. You get a big sound for the mic and a small sound for the speakers. The mic input noise is minimal and you can hear the background. The audio quality is very good. This is a great webcam for everyone. The video quality is really good. The webcam has a great color rendering. This webcam is very easy to use. You can make video and screen-shot (screen) recordings using this webcam. The webcam works on Windows XP, Vista, and 7. In Windows 7, you need to activate the webcam using the camera wizard. For Windows XP, you have to download the driver for your webcam. This driver was developed by the Sony corporation. This website contains several drivers for all Sony products. The name of the driver is ICE1321V2G. The update manager will not recognize that the download is available for the drivers. The driver is already part of the latest version of the update manager. For this reason, you should uninstall the current update manager to make the driver available for the update manager
